Friday, 25 June 2010

Dear Mr Fiedler,

Re: Residential Tenancies (Caravan Parks and Movable Dwellings Registration and Standards) Regulations 2010 Consultation

Thank you for your contribution to the consultation on the draft caravan park Regulations. Your organisation's input has helped to shape the final Regulations. In total, 22 submissions were received by the Department. In all cases, the issues raised have been carefully considered and where appropriate, the Department has amended the draft Regulations to incorporate stakeholder suggestions.

The Department welcome's HAAG's work in this area and is grateful for its contribution both to the RIS process and the wider policy debate.

Please find attached a table which details the Department's response to each of the issues raised in your submission and the changes made to the draft Regulations as a result.

The Regulations are in the process of being finalised and will come into effect at the end of June 2010 at which time the 1999 Regulations will be revoked.

Once again I would like to thank you for the time and effort which you and your organisation have committed to this consultation.

Yours sincerely

Angela Jurjevic
Executive Director
Housing and Building Policy
