## HOUSING FOR THE AGED ACTION GROUP OVERVIEW

Housing for the Aged Action Group is a member-based, community organisation specialising in the housing needs of older people. The organisation was formed over 40 years ago and today has over 900 members that actively campaign for housing justice.

### Our Services: Home at Last

Home at Last is a unique specialist housing service for older people, providing information, support, advice, and advocacy. This includes:

- State-wide Information and Referral – providing support to over 1,000 older people a year about their housing options, referrals to housing support, aged care, and other services
- Housing Support – a service for low-income people who are homeless or at risk of homelessness to assist them into long-term affordable housing (mainly social housing). This includes assistance with housing applications, support during the move, establishing a new home and referrals into aged care and other supports.
- Retirement Housing Advice and Advocacy – specialist information, support and advocacy for people interested in, or living in, retirement housing. This includes lower cost retirement villages, residential parks, rental villages, and caravan parks.
- Care finder – information, intensive support for people who need it to access aged care and other services, targeting older people with “special needs”

## Care Finder Program

Care finders provide assertive outreach to identify and engage with people who need intensive support. Many older people with special needs (as defined in the Aged Care Act) will access care finders if they are vulnerable, marginalised, or disadvantaged, this includes language or cultural differences, being homeless or at risk of homelessness, and needing specialist support because of life history or identity, such as the Forgotten Australians or people who identify as LGBTI+.

Care finders will help older people who have one or more reasons for requiring intensive support to:

- Interact with My Aged Care and access aged care services
- Access other relevant supports in the community

## Position Details

The Care finder position sits within the Housing Support and Care Finders team. Working closely with HAAG's housing support service, retirement and Early Intervention teams, the role is responsible for delivering care finder services to the target population in the North West Metropolitan region.

Key areas of focus include: provision of high-quality person-centred services that deliver independent information and intensive support to people who need assistance to access and understand the aged care system and other supports: assertive outreach to proactively identify and engage with people and building and maintaining networks in the local community.

## Statement of roles

1. Coordination of support
  - Provide personalised information and support to clients who have barriers to engaging with, understanding, and accessing the aged care system and other support systems
  - Maintain a case load of clients in the North West Metropolitan area, including home visits and outreach
  - Receive and action client referrals from HAAG's intake, housing support and retirement housing teams
  - Provide intensive navigation support to help people to access local services in the North West Metropolitan region
  - Follow up on client's needs to ensure that they receive support, for example, difficulties with registration, assistance with applications etc
2. Assertive Outreach
  - Facilitate linkages with a range of external service providers to ensure smooth referrals and access to services
  - Explore different ways to effectively engage and build rapport with potential clients, for example, meeting people in their own environment, adapting your style of working to suit individual needs
  - Maintain appropriate service standards in all interactions with clients and other service providers including confidentiality, consent, client dignity and cultural awareness standards
3. Data collection and reporting
  - Maintain up to date client information and data in the client management system including:

- Timely recording of client information, case notes, referrals, and all required data entry
- Create and maintain case plans for all clients
