Housing Information and Support for Older LGBTI people

The Rainbow Tick is a quality framework that helps organisations show that they are safe, inclusive and affirming services and employers for the LGBTIQ community.

HAAG's vision is a world where all older people have secure, safe and affordable housing.

Do you need assistance to find affordable housing?

HAAG can help you with information on your housing options, that are suitable to your (and your partner's) needs no matter how you identify.

Your needs, wellbeing and happiness are important. Talking to someone who will listen and understand you, as an older LGBTI person is an important step towards finding an affordable home where you can age in place.

Did you know?

Older single LGBTI people in the private rental market face increased risks and are more likely to be at risk compared to non-LGBTI older single people.

60% of LGBTI older people do not know where to go for help and information about their housing options.

Reliance on informal support networks coupled with historical discrimination, leaves older LGBTI people vulnerable to homelessness.

Many older LGBTI people who are experiencing homelessness have otherwise ordinary lives, but they do not have a permanent place to live.

You have the right to age in own home and community safely, independently, and comfortably, regardless of age, income, gender, or sexuality.

If you want to help us work towards housing justice for older LGBTI people, please contact us to find out more about our LGBTI reference group (pictured).
