Many older people are living in insecure housing, worried about where they will live in the future.

These are some of the situations older people may find themselves in:

"My landlord sent me a Notice to Vacate and I didn't know where to turn for help."

"When the rent went up again it became impossible to pay."

"I had a fall and needed grab rails installed but the landlord said no."

"My family wanted to help when I lost my home but I couldn't stay there forever."

Secure, affordable housing options are available but you may need assistance to find them.

HOME at Last is a free service that provides confidential advice and support for older people to find a home for life.
